Wool is all around us. It's in our closets, our blankets, our shoe insoles, and even the insulation in our homes. This incredible natural material has been used for centuries for a wide range of practical solutions, but in this joint exhibition Cecilia Ho and Sarah Mandell explore the material purely for its beauty. With 25 years of combined fiber art experience, Ho and Mandell use needle felting, wet felting, nuno felting with silk fabric, rug hooking and punch needle techniques to create 2D and 3D work inspired by all aspects of nature.
