Green Hill Center for NC Art in Greensboro, NC, Features Retrospective by Roy Nydorf

Green Hill Center for NC Art in Greensboro, NC, will present the exhibit *Roy Nydorf: Four Decades*, presenting the first major survey of the work of Roy Nydorf, on view from Apr. 19 through June 10, 2012. A reception will be held on Apr. 19, from 5:30 - 7:30pm

Four Decades, the first major survey of the work of Roy Nydorf constitutes a mid-career retrospective of this beloved Greensboro artist and Guilford College

professor whose works figure in the collections of the Hirshhorn Museum, the Smithsonian American Art Museum, the Honolulu Academy and the Weatherspoon Art Museum among others.

This exhibition will present Nydorf's investigations and mastery of several mediums, including drawing, printmaking, painting and sculpture. This exhibition will consider Nydorf as not only an

artist of multi-faceted technical virtuosity but who has consistently produced work informed by a humanist approach to the subject.

Viewers will explore Nydorf's themes and imagery as well as the development of his figurative style based upon a rhythmic use of line. The human form, first explored during the artist's formative years in New York, dominates Nydorf's oeuvre, through solitary portraits, groups of tobacco pickers and bathers, and mythological scenes. A large selection of the artist's figurative carvings in relief and in the round will be seen together for the first time.

"I believe in art that is intimate, directly connected to human experience and capable of many layers of meaning and interpretation," says Nydorf. "If the simple image contains a vast complexity while retaining its purity and grace, then I have achieved my purpose."

Roy Nydorf: Four Decades was curated by Edie Carpenter, Director, Curatorial & Artistic Programs of Green Hill Center for NC Art.

On Sunday May 6, from 2:30-3:30pm - Artist Walk-Through Tour. Join artist Roy Nydorf as he accompanies visitors on a tour of the over 200 works in his exhibition and speaks about his influences and inspiration and the "sinuous line; sensual tactile surfaces; luminous color; fantasy

and whimsy; and intimacy with nature" which characterize his work. The artist will be available to sign the 36 page color catalog available for sale.

On Wednesday May 23, 2012, from 5:30-6:30 - Christopher Benfey will give a lecture about Roy Nydorf. Professor, author, art critic and poet, Benfey has observed, explored with and written about Roy Nydorf. He will share his observations about Nydorf's four decades of work.
