

## MEET OUR RESIDENT ARTIST:

# Lady Natalia Perez Lozano

OIL PAINT, MIXED MEDIA,  
AND PASTEL ARTIST

“During the residency, I will be focusing on my second series, in which I explore the various instincts inherent to human nature (survival, resilience, vulnerability, ego, and fear) through the expressive power of body language and carefully constructed scenes. What I seek with this visual language is to expose our vulnerabilities and strengths. I use tigers as recurring symbols throughout the series, each embodying an obstacle or a unique facet of the fears we carry within. Rather than engaging in combat, the human figures interact with these creatures in moments of tension, reflection, and surrender, revealing the barriers we place around ourselves.”
